

## CFSCC1-10xBTS-CUST Complete tank set 7x CCT-500C, 2x MBTVI-500C, 1x YSTP-4, central control cabinet

Price: € 90 157 - € 119 788

**SKU:** CFSCC1-10xBTS-CUST

**Product Categories:** [CC1Z Complete fermentation sets with tanks CCT-500C](#)

**Product Page:** <https://eshop.czechminibreweries.com/product/cfsc1-10xbts-cust/>

### Product Summary

Complete set which includes tanks for the fermentation and maturation of beer, yeast storage and the temperature measuring and cooling system. This set includes all equipment necessary for professional production of beer using the fermentation and maturation of wort produced before in the the brew wort machine.

Assembling of the set is very easy. The installation does not require any professional workers - there is needed only adequate handling equipment for moving and installation of heavy cylindrical-conical fermenters on place after

delivering of the set. All wires, temperature measuring and regulation equipment (exclude covered central control cabinet and cooler) operate with safety voltage 24V, therefore they can be installed by customer using the installation manual. Therefore the price of the set does not include the installation work.

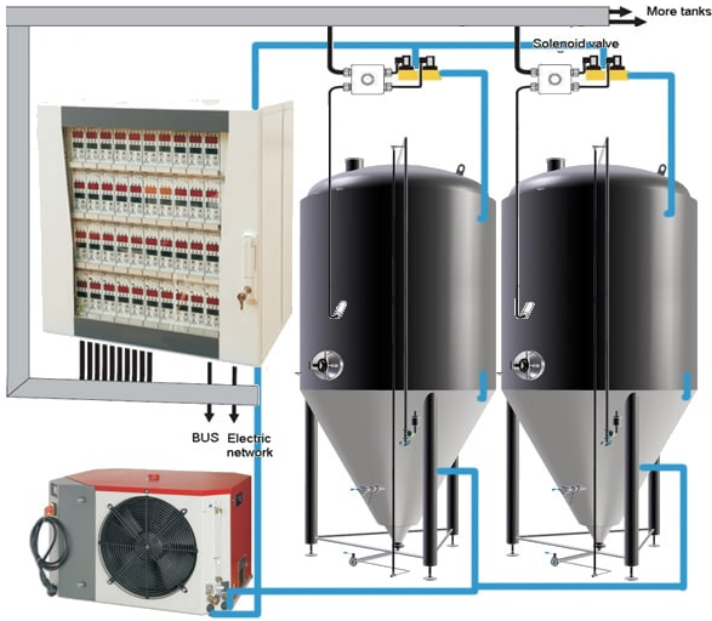

The set consists of the equipment described bellow:
